Report description:

Israel witnessed a protracted winter in 2022 which ended much later than usual. At the end of March 2022, the weather was still very cold which is unlike a normal winter. Retail stores adapted to the weather and continued to push its winter products with bigger discounts, which had a positive impact on the hosiery category. With more female consumers socialising and leaving their homes to work, demand for hosiery has picked up substantially in 2022. Retail value sales have been picking up since...

Euromonitor International's Hosiery in Israel report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2017-2021 and analysis by distribution format allowing you to identify the sectors driving growth.
