### **Report description:**

After a strong recovery in 2021, jeans is set to record healthy growth in retail volume and current value sales in 2022. Consumers look to jeans as staple wear inside and outside the home. More casual attire norms in workplaces also encourage the wearing of smart or decent jeans to work. To keep pace with demand, brands and retailers are opening more stores. For example, in early 2022, Canadian brand DUER, known for its range of performance stretch denim, opened a flagship store in Vancouver.
