Report description:

Ongoing outbreaks of COVID-19 during Q1 and Q2, negatively impacted sales in the personal accessories landscape. However, later in Q2, the consumption of personal accessories started to recover and grow. Growth following the 2022 wave of COVID-19 came fast, as consumers were open to shop and travel, leading to positive sales. Overall, retail value and volume sales for high-end products had a smaller impact than mass products due to the extreme polarisation of income levels known as an "m-shape s...
