Report description:

The increasing consumer interest in healthy dairy products, especially those with an immunity boosting positioning, continue to support sales of sour milk products during 2022, although this trend did not benefit sales of yoghurt to the same extent. Nonetheless, some of the leading names in yoghurt are increasingly positioning their products as naturally healthy and/or fortified/functional, with the focus very much on gut health and immune system support. Category leader Arla Foods for instance...

Euromonitor International's Yoghurt and Sour Milk Products in Denmark report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
