

## **South-East Asia Building Automation System Market -Industry Trends and Forecast to 2030**

Market Report | 2022-12-01 | 230 pages | Data Bridge Market Research

### **AVAILABLE LICENSES:**

- Single User License \$3500.00
- Corporate Users License \$4200.00

### **Report description:**

The South-East Asia building automation system market is projected to register a CAGR of 6.2% in the forecast period of 2023 to 2030. The new market report contains data for the historic year 2021, the base year of calculation is 2022, and the forecast period is 2023 to 2030.

### **Market Segmentation:**

South-East Asia building automation system market, By System type (facility management systems (FMS), fire protection systems, security and access control systems, energy management systems, building management software (BMS), and others), technology type (wireless technologies and wired technologies), application type ( commercial, industrial and residential segment), Country (Myanmar, Cambodia, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, Vietnam, Rest of South-East Asia) Industry Trends and Forecast to 2030

Some of the major factors contributing to the growth of the market are:

- Increase in demand for distributed control systems used to manage electronic devices
- Rising construction activities across the region

### **Market Players**

Some of the major players operating in the South-East Asia building automation system market are:

- Carrier
- Robert Bosch GmbH
