Report description:

Analgesics in Austria continued to see strong growth in retail current value sales terms in 2022, with positive, if more moderate, increments in retail volume terms. Growth was driven by sales of systemic and topical analgesics alike. Many consumers returned to more active and busy lifestyles, which often lead to increased stress and tension (headaches, back, neck and shoulder aches and other ailments), as well as activity-related injuries. This contributed to a growing need for analgesics in ge...

Euromonitor International's Analgesics in Austria report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
