Report description:

In 2022, sports apparel witnessed a stronger performance than sports footwear with sports-inspired categories driving both retail volume and current value sales. As consumers began to return to pre-pandemic patterns of indoor training and team sports activities, performance and sports-inspired categories registered stronger value growth compared to 2021. Outdoor sportswear saw little change in growth rates in 2022 after being the leading sportswear category in the previous year. Swedes have becom...

Euromonitor International's Sportswear in Sweden report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022 and analysis by distribution format allowing you to identify the sectors driving growth.
