- Multiple User License (Global) €2475.00

Report description:

Vitamins account for sizeable value sales in Pakistan and in 2022, vitamins were the star performer, with volume sales increasing by over a fifth. While multivitamins registered the highest current value growth, single vitamins account for most volume sales, in particular vitamin D, followed by vitamin C. According to recent studies, around 56% of the Pakistani population is suffering from Vitamin D deficiency, with children aged between 6-18 years composing the highest share of this deficiency.

Euromonitor International's Vitamins in Pakistan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Multivitamins, Single Vitamins.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?
