Report description:

Lodging is rising in 2022 but full recovery remains out of reach for many operators. COVID-19-related restrictions in 2021 hit lodging hard and lasted until Q1 2022. Thanks to government support programmes and growth in domestic tourism, the drop in the number of operators was not as high as expected. Nonetheless, lodging continues to suffer from pandemic fallout - most notably, a shortage of labour. During the pandemic many workers were laid off or left their jobs, and of these a substantial pr...

Euromonitor International's Lodging (Destination) in Slovakia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2017-2021, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2026 illustrate how the market is set to change.
