Report description:

The rate of growth in retail current value sales of ready meals has accelerated significantly during 2022. This growth is mainly driven by an increase in unit price, with retail volume sales essentially flat. Overall, increases in the cost of raw materials, shipping costs, labour wages and energy have led to substantial price increases in all cooking ingredients and meals categories. Since the lifting of COVID-19 related restrictions and a return to normalcy, local consumers have been spending I...
