Report description:

In 2022, retail value sales of meals and soups are set to record double-digit growth. Inflationary pressures are a key contributor to this value increase, while volume sales are predicted to see only marginal growth. Plant-based alternatives in ready meals continue gaining in popularity in 2022. Vegan and clean label ready meals perform exceptionally well as the number of vegans, vegetarians and flexitarians is increasing rapidly in the country. Significant product innovation is taking place wit...

Euromonitor International's Meals and Soups in Slovakia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
