Report description:

Growth in total sportswear current value sales in 2022 was up substantially on 2021. While this was partly due to price hikes amidst a significant and prolonged surge in inflation, the category also benefited as the number of Hungarians participating in sports and fitness activities continued to increase in line with rising health-consciousness. The latter trend has been well established for several years, but has recently gained momentum due to concerns and lifestyle changes related to COVID-19...

Euromonitor International's Sportswear in Hungary report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022 and analysis by distribution format allowing you to identify the sectors driving growth. It identifies the leading companies, leading brands, and offers strategic analysis of key factors influencing the market. Forecasts to 2027 illustrate how the market is set to change.
