Report description:

Watches in South Korea heavily rely on global luxury brands, with the top 10 largest luxury players in the local market contributing to one third of all watch sales in the country. As noted in other categories of personal accessories, imported global luxury watch brands are raising their retail prices in 2022 due to ongoing fluctuations in the exchange rate, changes in pricing policies, and increasing costs of production and raw materials. Therefore, the average unit price of traditional and con...

Euromonitor International's Traditional and Connected Watches in South Korea report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2017-2021), allowing you to identify the sectors driving growth.
