Report description:

The Philippines data center market size is projected to witness investments of USD 1,016 million by 2028, growing at a CAGR of 11.01% from 2022-2028.

The country is on a path of digital transformation while reshaping its businesses and organizations rapidly, aided by services provided by cloud providers such as Google Cloud, Alibaba, Amazon Web Services (AWS), and Tencent Cloud.

KEY HIGHLIGHTS OF THE REPORT

- In Southeast Asia, the Philippines data center market is one of the fastest emerging markets. In 2022, the country received investments from telecom and colocation operators.
- The Philippines capital Manila is its prominent data center hub. The capital hosts the maximum number of facilities in the country. Further facilities development is not only just highly limited to Manila, but other cities are also now witnessing a high rate of data center investments.
- The Philippines has a presence of colocation, telecom, and cloud service providers. Some of the operators in the country are ePLDT, YCO Cloud Centers, Beeinfotech, and Globe Telecom, among others. In 2022, the country witnessed investments from new entrants such as Edge Centres, Digital Edge, and Nautilus Data Technologies, among others.
- The usage of the cloud, the ongoing digital transformation, and the tremendous growth in digital connectivity on an international scale and sectors in the Philippines, such as BFSI, healthcare, and telecommunications, are migrating their workloads to the cloud will drive the Philippines data center market.
- The region is showing high growth in terms of renewable energy. The government is harnessing renewable energy at large levels to meet its green environment goals. Operators in the country are expected to procure renewable energy for their operations.

COLOCATION SUPPLY VS DEMAND

- The retail colocation market is expected to grow at a CAGR of around 7.5%, whereas wholesale colocation will grow at a CAGR of around 51%, majorly contributed by hyperscale cloud service providers.
- In the Philippines, enterprise sectors are actively involved in migrating their workloads to the cloud, growing the demand for cloud/hyperscale capacity during the forecast period.
- e-commerce, BFSI, healthcare, public sector agencies, and other sectors will increase the demand for colocation and cloud during 2023 - 2028.
- The entry of new colocation operators in the Philippines, such as Edge Centres, SpaceDC, Digital Edge, YCO Cloud Centers, Megawide Construction, Digital Halo, and Nautilus Data Technologies, fuel the colocation market revenue of the country.

WHY SHOULD YOU BUY THIS RESEARCH?

- Market size available in the investment, area, power capacity, and Philippines colocation market revenue.
- An assessment of the data center investment in the Philippines by colocation, hyperscale, and enterprise operators.
- Investments in the area (square feet) and power capacity (MW) across cities in the country.
- A detailed study of the existing Philippines data center market landscape, an in-depth industry analysis, and insightful predictions about industry size during the forecast period.
- Snapshot of existing and upcoming third-party data center facilities in the Philippines
 - Facilities Covered (Existing): 21
 - Facilities Identified (Upcoming): 10
 - Coverage: 07+ Locations
 - Existing vs. Upcoming (Area)
 - Existing vs. Upcoming (IT Load Capacity)
- Data center colocation market in the Philippines
 - Colocation Market Revenue & Forecast (2022-2028)
 - Wholesale vs. Retail Colocation Revenue (2022-2028)
 - Retail Colocation Pricing
 - Wholesale Colocation Pricing
- The Philippines' market investments are classified into IT, power, cooling, and general construction services with sizing and forecast.
- A comprehensive analysis of the latest trends, growth rate, potential opportunities, growth restraints, and prospects for the industry.
- Business overview and product offerings of prominent IT infrastructure providers, construction contractors, support infrastructure providers, and investors in the industry.
- A transparent research methodology and the analysis of the demand and supply aspects of the industry.

VENDOR LANDSCAPE

- Some key investors in the Philippines data center market include PLDT, SpaceDC, YCO Cloud Centers, Beeinfotech, and Globe Telecom, among others.
- The industry has witnessed investments from new market entrants, such as Edge Centres, Digital Edge, and Nautilus Data Technologies.
- The construction contractors in the country have both global and local presence, supplying major operators in the market. For instance, Arup, Aurecon, Comfac, and PRONET, among others.
- The operators enter the market by acquiring data center operators or forming joint ventures. For instance, In October 2022, EdgeConneX and Aboitiz InfraCapital (AIC) partnered and formed a JV to build two data centers near Manila.
