Report description:

Retail current value sales of cheese are expected to continue to grow during 2022, following the positive developments experienced during 2020 and 2021 due to the impact of the pandemic. Cheese experienced high popularity during lockdowns in the first two years of the pandemic, as more meals were consumed at home, and the habit of eating more cheese at home has remained amongst many consumers. Even though retail volume sales are set to decline in 2022, mainly due to the massive decline for soft...

Euromonitor International's Cheese in Germany report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
