Report description:

Retailers and brands alike consider childrenswear a lucrative category as children continuously outgrow their clothing and require frequent replacements. Following 2020's significant declines during pandemic-induced home seclusion, retail volume sales of both baby and toddler wear and girls' apparel recovered in 2022 in line with greater mobility in Australia. This trend contributed to the ongoing demand for childrenswear over the year, with players recognising the opportunities of entering the...

Euromonitor International's Childrenswear in Australia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022 and analysis by distribution format allowing you to identify the sectors driving growth.
