### **Report description:**

Retail volume sales of coffee declined slightly in 2022 largely due to people returning to their pre-pandemic lives and switching back to on-trade consumption. This had a particularly pronounced effect on standard fresh ground coffee and instant coffee, with these products being mainly consumed at home. On the other hand, on-trade coffee sales saw a full recovery in 2022 and even slightly exceeded pre-pandemic levels. However, while demand for coffee remained strong the category was also hit by...
