Report description:

After debit cards, credit cards represent the most popular financial card in Sweden, although unlike the latter, the number of cards in circulation fell over the review period. While this was partly attributable to the impact of the COVID-19 pandemic, the number of cards was falling already even before the crisis, due to increasing competition from other credit lines. However, both the number and value of transactions increased 2022, alongside a notable rise in the average spend per transaction.

Euromonitor International's Credit Card Transactions in Sweden report establishes the size and structure of the market for ATMs cards, smart cards, credit cards, debit cards, charge cards, pre-paid cards and store cards.
