Report description:

2022 marked the beginning of the recovery period in Indonesia's financial cards and payments market. Many categories are very reliant on the mobility of the population. As people started to go back to work and resume their activities, their financial confidence rose and their purchasing power improved. Due to economic recovery, household consumption also began to creep up. All the categories within the financial cards and payments industry are growing positively in 2022, with some having stronge...
