Report description:

The home care market in Malaysia saw marked price rises in 2022 as a result of global increases in the costs of raw materials, energy and transportation, as well as the weakness of the local currency. Home care products saw prices increase by more than 10% during the year. Facing significant increases in the cost of raw materials, rising logistics costs and an increase in the minimum wage in Malaysia, many brands increased their prices by between 10% and 20% in 2022. In this environment, value f...

Euromonitor International's Home Care in Malaysia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
