Report description:

Home insecticides continued to see retail volume and current value sales decline in 2022. The principal reason for this fall is the increasing level of smuggling from neighbouring countries. Argentina's currency devaluation and weak border control in Bolivia has boosted illegal smuggling of home insecticides in recent years. Consumers see little differentiation as products from Argentina are the same imported brands from legal companies, but priced considerably lower. Illegal products are mostly...

Euromonitor International's Home Insecticides in Bolivia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
