Report description:

In 2022, home insecticides registered healthy current value and volume growth. Home insecticides are seen as an essential in Cameroon, as malaria-carrying mosquitos are prevalent. Malaria is the third deadliest disease in Cameroon, killing over 45,000 Cameroonians every year, with a vast majority of them children. As a result, demand for home insecticides is driven primarily by the fight against these malaria-carrying mosquitoes.

Euromonitor International's Home Insecticides in Cameroon market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
