- Multiple User License (Global) €2475.00

Report description:

The mosquito population has increased dramatically in Morocco over the past five years. Since mosquitoes are one of the major disease-carrying insects, they have received serious attention in recent years, with emphasis on developing measures to eradicate them. The higher levels of mosquitoes are driving demand for insecticides supporting retail volume sales in 2022.

Euromonitor International's Home Insecticides in Morocco market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
