Report description:

The increasingly crowded and busy lives of consumers in Saudi Arabia has helped fuel a rise in the insect population. Added to this, hot temperatures and the growing influence of climate change on the weather, as well as the introduction of new insects into the Kingdom that spread diseases, all continued to drive demand for home insecticides in 2022. Flying mosquitoes and crawling insects such as ants and cockroaches are particularly problematic for consumers in Saudi Arabia and helped to suppor...

Euromonitor International's Home Insecticides in Saudi Arabia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
