Report description:

In 2022, toilet care continued its single-digit growth in retail current value terms, which was directly influenced by the strong inflationary pressure on categories. As manufacturers increased prices during the year, this consequently discouraged strong performances in retail volume terms. In particular, low- and middle-income households reduced the volumes purchased to fit their tighter budgets. In retail volume terms, a positive growth trajectory was still observed; however, at a reduced pace...

Euromonitor International's Toilet Care in Brazil market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
