Report description:

Air care products continue to see strong growth in 2022, in both retail volume and current value terms. Hungarian consumers have become more accustomed to using air care since the COVID-19 pandemic and hence products are used frequently in 2022. Air care is chosen because of the fragrance and ambience it creates in the household. New innovative and convenient formats, such as electric air fresheners and liquid air fresheners, have performed particularly well. There are also a rising number of su...

Euromonitor International's Air Care in Hungary market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
