Report description:

The return of shopping tourism limited sales of dishwashing products in 2022. During 2020 sales of dishwashing rocketed with consumers unable to cross the border into neighbouring countries where prices are generally cheaper. Sales were also boosted by consumers spending more time at home and thus using more dishes. In 2021 restrictions were eased and demand for dishwashing eased as consumers started to eat more meals away from the home, while shopping tourism also resumed once borders were reop...

Euromonitor International's Dishwashing in Switzerland market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
