Report description:

Home insecticides is mainly a seasonal, functional product and the main driver of volume sales each year is the size of the insect population. In 2022, there was a drop in volume sales of spray/ aerosols, as consumers looked for less toxic products, with all other product areas registered volume growth. The insect population continued to be a nuisance and was aggravated by a hot summer.

Euromonitor International's Home Insecticides in Bosnia and Herzegovina market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
