Report description:

Retail value sales of home insecticides recorded solid growth in 2022. Inflationary pressures are a key contributor to this strong value increase, while volume sales saw a decline during the year. Overall, increases in the cost of raw materials, shipping costs, labour wages and energy have led to substantial price increases in all home care categories, including home insecticides. The decline in consumer purchasing power and heightened price sensitivity resulted in a trading down to private label...

Euromonitor International's Home Insecticides in Denmark market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
