Report description:

Spray/aerosol insecticides remained by far the leading format in home insecticides in Estonia at the end of the review period. Within home insecticides, the spray/aerosol format is perceived to be the most convenient option to use to repel or kill insects inside the home. Spray/aerosol insecticides has historically been the most popular category, and consumers who use such products appreciate their ease-of-use, effectiveness and wide availability in retail channels.

Euromonitor International's Home Insecticides in Estonia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
