### **Report description:**

Other plant-based milk expanded rapidly in retail volume terms over the latter part of the review period, and is set to record another impressive performance in this regard in 2022. While growth continues to be skewed by the emergence of sales from a low base, the category has benefited as the well-established tendency towards rising health-consciousness among Argentinians has been reinforced by the COVID-19 pandemic. Improvements in distribution have also recently helped to strengthen consumer...

Euromonitor International's Plant-based Dairy in Argentina report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
