### **Report description:**

2022 saw plant-based dairy record another year of phenomenal volume and value growth as sales continued to skyrocket despite the substantially higher base that category sales are now rising from. Nonetheless, it should be noted that plant-based dairy is still a considerably smaller category than dairy, although is outpacing dairy growth by far. The category's very strong performances based on the increasing interest of Colombians in new products that conform to key principles of the health and w...
