**Report description:**

At the end of the review period, around half of all value sales generated in plant-based dairy were accounted for by smaller brands agglomerated under "others" in Euromonitor International research. While this fragmentation has created a complex and constantly shifting competitive landscape, it has also meant that a wide variety of products are now available in the category. However, it should be noted that many of these smaller brands offer only one product line in the Dominican Republic, rathe...

Euromonitor International's Plant-based Dairy in Dominican Republic report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
