Report description:

Plant-based dairy alternatives are continuing to develop at a pace in Latvia, but it remains a niche in 2022. Certainly, plant-based dairy is an increasing part of the diet not only for vegans and vegetarians, but also for an increasing number of non-vegetarians. Consuming fewer animal-based products is increasingly believed to enrich diets, improve health and decrease environmental footprint with some Latvians opting to take a flexitarian approach and incorporating more plants in their diet.
