Report description:

Changing trends and a perceived need for polishes over the review period were exacerbated by higher price-sensitivity from the onset of the Coronavirus (COVID-19) pandemic. As consumers prioritised essential and lower-priced brands or private label products, retail volume growth slowed, compared with the already slight increments recorded in the early review period. Meanwhile, high inflation and rising productions costs exerted upward pressure on unit prices, which supported higher retail curren...

Euromonitor International's Polishes in Estonia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
