Report description:

Polishes recorded exceptionally strong growth in retail value terms in 2022. Inflationary pressures are a key contributor to this strong value increase, while volume sales saw a marginal decline during the year. Overall, increases in the cost of raw materials, shipping costs, labour wages and energy have led to substantial price increases in all home care categories, including polishes. Furniture polish was the best performing category during the year. This is largely due to the return to normal...

Euromonitor International's Polishes in Latvia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
