Report description:

In 2022, home care continues to benefit from the raised hygiene awareness brought about by the COVID-19 pandemic, and now the recent outbreak of the Ebola virus. Despite the popularity of traditional alternatives and high poverty levels in the country, population growth, retailing development and urbanisation are boosting sales. However, players face some new challenges due to high inflation and fuel shortages, which are leading many consumers to cut out unnecessary spending and trade down to mo...

Euromonitor International's Home Care in Uganda market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
