Report description:

With there being no further COVID-19 lockdowns in 2022, and with restrictions being eased, many chained full-service restaurants in Thailand a strong sales recovery during the first half of 2022. With shopping centres, department stores and hypermarkets facing no further restrictions or limitations on customer numbers dining in, most full-service restaurants posted a return to growth in the volume and value of transactions. With a more positive outlook, many operators also invested in expanding...

Euromonitor International's Full-Service Restaurants in Thailand report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they eating habits, lifestyle changes, tourism spending or legislative issues. Forecasts to 2027 illustrate how the market is set to change.
