Report description:

After negative results in 2020 due to the impact of COVID-19, self-service cafeterias started to record positive growth in 2021. However, due to the lockdown at the beginning of 2021, various restrictions throughout the year meant that value sales remained low. Moving into 2022, all restrictions were lifted in Denmark; however, many Danes did not return to working from the office, with a shift seen in the country to embrace hybrid forms of working. This led to a higher volume of people working f...
