Report description:

The war in Ukraine had a negative impact, with the resultant energy crisis leading to high inflation and dampening volume sales somewhat. As a result, while away-from-home tissue and hygiene registered a double-digit increase in current value sales in 2022, constant value sales fell slightly. All the same, there a slight increase in volume sales, despite a declining population. This was due to society fully opening up, including offices and schools.

Euromonitor International's Away-from-Home Tissue and Hygiene in North Macedonia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
