Report description:

Bleach continued to record positive growth in 2022, largely driven by consumers' desire to keep their homes clean and hygienic on a regular basis. The majority of local consumers became less anxious about the impact of COVID-19 but remained aware and educated about the importance of maintaining a healthy and hygienic environment. For this reason, health trends continued to drive sales of bleach in South Africa. On the other hand, remote working and spending greater time at home compared to pre-p...

Euromonitor International's Bleach in South Africa market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
