### **Report description:**

Concerns around inflation and rising food prices took centre stage during 2022. In the wake of Russia's invasion of Ukraine, food inflation spiked, which had a significant impact on consumer spending. Overall inflation in South Africa increased to 7.4 % in June 2022, the highest rate since May 2009. Given the rise in food and transportation costs, many local consumers were restricted from purchasing perceived non-essentials. Low-income consumers were affected the most, resulting in most of their...

Euromonitor International's Home Care in South Africa market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
