Report description:

Home insecticides continued to enjoy stable demand in 2022, as the category remained essential to most local households. Demand for home insecticides continued to be largely driven by the presence of household pests including flies and cockroaches during the hotter months in South Africa. Spray/aerosol insecticides remained the largest category overall, supported by product efficacy and price, as consumers continued to demand more affordable yet quality brands. Additionally, health and wellness,...

Euromonitor International's Home Insecticides in South Africa market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
