Report description:

Robust volume growth was recorded in retail adult incontinence during 2022 as rising demand was due mainly to an expansion of the consumer base for these products. This can be explained by the emergence of numerous diseases and illnesses that can have a detrimental effect on the urinary system, which has resulted in there being far more people among the Bulgarian population living with urinary incontinence. In addition, there are growing numbers of overweight and obese people among the Bulgarian...

Euromonitor International's Retail Adult Incontinence in Bulgaria report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth.
