Report description:

Retail adult incontinence recorded moderate volume growth in 2022 despite particularly high inflation, which limited consumer spending power. A key driver of growth in recent years has been an increase in the elderly population, with the population aged 65+ increasing by 2% in 2022. A good proportion of this age group suffer from incontinence and receive recommendations to use such products from medical care professionals. Furthermore, a lack of awareness of the need for prevention and early det...

Euromonitor International's Retail Adult Incontinence in Nigeria report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth.
