Report description:

The steady value growth registered in sanitary protection during 2022 can be attributed mainly to the higher prices being charged for raw materials and rising production costs. The extra cost burden created by these inflated overheads were inevitably passed on to consumers by manufacturers and distributors already facing pressure on margins, with consumers paying considerably higher prices than what they had previously been accustomed to by the end of the year. Pantyliners was the most dynamic c...

Euromonitor International's Sanitary Protection in Bulgaria report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth.
