Report description:

In general, Romanian consumers have become more educated about sanitary protection and thus more likely to use specialised products (such as towels for night use or pantyliners). They have also become more demanding and more attentive to the quality of the products they purchase. This helped sanitary protection to register a positive performance in 2022.

Euromonitor International's Sanitary Protection in Romania report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
