Report description:

Due to high inflation rates and the devaluation of the Egyptian currency, price-points rose in 2022, leading tissue and hygiene in Egypt to record significant current retail value growth. However, while retail volume growth was positive for several categories, inflation negatively affected the expenditure of average consumers and reduced their purchasing power, forcing consumers to prioritise their purchases towards essential needs.

Euromonitor International's Tissue and Hygiene in Egypt report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Away-from-Home Tissue and Hygiene, Retail Tissue and Hygiene, Rx/Reimbursement adult incontinence, Total Tissue and Hygiene.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
