Report description:

In 2022, the tissue and hygiene market in Malaysia faced significant inflationary pressure following the global imposition of COVID-19 lockdowns and the subsequent Russian invasion of Ukraine. Manufacturers and retailers were confronted with the inflated cost of raw materials and supply issues, as well as the weakness of the Malaysian ringgit and the increase in the minimum wage in Malaysia. Many brands increased prices by 10% to 20% in 2022 to cope with the severe issues to which they were expo...

Euromonitor International's Tissue and Hygiene in Malaysia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues. Forecasts to 2027 illustrate how the market is set to change.
