Report description:

Tissue and hygiene registered current value growth in 2022, though constant value sales fell, and volume growth was minimal. An uncertain economic environment dampened volume demand. In particular, rising prices stemming from the war in Ukraine, which led to rising fuel prices, as well as supply disruptions, negatively impacted growth.

Euromonitor International's Tissue and Hygiene in Slovenia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth.
